Projects

Deep Learning Covid-19 Features on CXR using Limited training Dataset[↗](#)

This project presents an artificial intelligence framework for covid-19 detection from CXR images using limited training data. In this model we employ a deep learning model based on a pre-trained CNN and investigate the use of transfer learning and data augmentation techniques.

Achievements

Python basics Certificate by Coursera

2022-08

Sql basics Certificate by Hackerrank

2022-11

Front-End Technologies Certificate by EPAM

2023-03

Completed Web Development-101 course in Pupilfirst

2023-01
